# IMMUNOLOGY

## CONTENTS

**Vol 79, No 1, May 1993**

1 **A. J. Stagg, W. A. J. Elsley, M. A. Pickett, M. E. Ward & S. C. Knight:** Primary human T-cell responses to the major outer membrane protein of *Chlamydia trachomatis*

10 **J. W. K. Chu & F. J. Sharom:** Gangliosides inhibit T-lymphocyte proliferation by preventing the interaction of interleukin-2 with its cell surface receptors

18 **P. van den Bergh, J. Rozing & L. Nagelkerken:** Identification of two moieties of $\beta$-endorphin with opposing effects on rat T-cell proliferation

24 **M. C. Amaral, A. M. Casillas & A. E. Nel:** Contrasting effects of two tumour promoters, phorbol myristate acetate and okadaic acid, on T-cell responses and activation of p42 MAP-kinase/ERK-2

32 **Y. Umesaki, H. Setoyama, S. Matsumoto & Y. Okada:** Expansion of $\alpha\beta$ T-cell receptor-bearing intestinal intraepithelial lymphocytes after microbial colonization in germ-free mice and its independence from thymus

38 **C. Lundqvist & M.-L. Hammarström:** T-cell receptor $\gamma\delta$-expressing intraepithelial lymphocytes are present in normal and chronically inflamed human gingiva

46 **W. De Smet, H. Walter & L. Van Hove:** A new CD43 monoclonal antibody induces homotypic aggregation of human leucocytes through a CD11a/CD18-dependent and -independent mechanism

55 **A. Daish, G. C. Starling, J. L. McKenzie, J. C. Nimmo, D. G. Jackson & D. N. J. Hart:** Expression of the CMRF-35 antigen, a new member of the immunoglobulin gene superfamily, is differentially regulated on leucocytes

64 **P. P.-J. Cheng, S. P. Sreedharan, J. L. Kishiyama & E. J. Goetzl:** The SKW 6.4 line of human B lymphocytes specifically binds and responds to vasoactive intestinal peptide

69 **A. Galelli, B. Charlot, E. Dériaud & C. Leclerc:** B cells do not present antigen covalently linked to microspheres

77 **E. J. Israel, N. Simister, E. Freiberg, A. Caplan & W. A. Walker:** Immunoglobulin G binding sites on the human foetal intestine: a possible mechanism for the passive transfer of immunity from mother to infant

82 **S. S. Tan, E. M. O'Toole, C. B. Kurtz & J. H. Weis:** Murine complement receptor gene expression: Cr2 gene transcripts are depressed during a high dose microbial challenge

89 **A. E. Falconer, R. Carson, R. Johnstone, P. Bird, M. Kehoe & J. E. Calvert:** Distinct IgG1 and IgG3 subclass responses to two streptococcal protein antigens in man: analysis of antibodies to streptolysin O and M protein using standardized subclass-specific enzyme-linked immunosorbent assays

95 **Y. Ikarashi, K. Kawai, H. Watanabe, Y. Matsumoto, S. Omata & M. Fujiwara:** Immunosuppressive activity of macrophages in mice undergoing graft-versus-host reaction due to major histocompatibility complex class I plus II difference

103 **I. Kamo, T. Kunishita, A. Kikuchi, I. Nonaka & A. Komiyama:** Characterization of a macrophage lineage cell colony-stimulating factor produced by thymic myoid cells

107 **P. W. Bland & C. V. Whiting:** Differential control of major histocompatibility complex class II I-$E^k_\alpha$ protein expression in the epithelium and in subsets of lamina propria antigen-presenting cells of the gut

112 **R. M. Fairhurst, M. Daeipour, M. C. Amaral & A. E. Nel:** Activation of mitogen-activated protein kinase/ERK-2 in phytohaemagglutinin blasts by recombinant interleukin-2: contrasting features with CD3 activation

119 **L. Ibrahim, M. Dominguez & M. Yacoub:** Primary human adult lung epithelial cells *in vitro*: response to interferon-$\gamma$ and cytomegalovirus

125 **A. J. Loughlin, M. N. Woodroofe & M. L. Cuzner:** Modulation of interferon-$\gamma$-induced major histocompatibility complex class II and Fc receptor expression on isolated microglia by transforming growth factor-$\beta$1, interleukin-4, noradrenaline and glucocorticoids

131 **A. Y. C. Kwok, X. Zu, C. Yang, M. J. Alfa & F. T. Jay:** Human interferon-$\gamma$ has three domains associated with its antiviral function: a neutralizing epitope typing scheme for human interferon-$\gamma$

138 **C. A. W. Bate, J. Taverne, D. Kwiatkowski & J. H. L. Playfair:** Phospholipids coupled to a carrier induce IgG antibody that blocks tumour necrosis factor induction by toxic malaria antigens

146 **C. Petit-Frere, B. Dugas, P. Braquet & J. M. Mencia-Huerta:** Interleukin-9 potentiates the interleukin-4-induced IgE and IgG1 release from murine B lymphocytes

152 **S. J. Thompson, H. S. G. Thompson, N. Harper, M. J. Day, A. J. Coad, C. J. Elson & N. A. Staines:** Prevention of pristane-induced arthritis by the oral administration of type II collagen

158 **F. Tiberghien, F. Pflumio, L. Kuntz & F. Loor:** Lack of transfer of *lpr*-type abnormalities (lymphoproliferation or lymphoid aplasia) in double congenic *nude beige* mice engrafted with *lpr* haematopoietic cells

**Brief communications**

167 **A. Murphy, K. C. Breen, A. Long, C. Feighery, E. B. Casey & D. Kelleher:** Neurofilament expression in human T lymphocytes

171 **A. Suhrbier, C. Schmidt & A. Fernan:** Prediction of an HLA B8-restricted influenza epitope by motif

174 **K. Kumai, G. Krishnaswamy, D. G. Marsh & S.-K. Huang:** The effect of interferon-$\gamma$, interleukin-4 and immunoglobulin receptor cross-linking of monocytes on allergen-specific T-cell response

**Vol 79, No 2, June 1993**

179 **R. J. Basaraba, P. R. Brown, W. W. Laegreid, R. M. Silflow, J. F. Evermann & R. W. Leid:** Suppression of lymphocyte proliferation by parainfluenza virus type 3-infected bovine alveolar macrophages

189 **T. Yamashita, T. Watanabe, S. Saito, Y. Araki & F. Sendo:** *Schistosoma japonicum* soluble egg antigens activate naive B cells to produce antibodies: definition of parasite mechanisms of immune deviation

196 **Y. Maeda, Y. Koga, K. Tanaka, X.-Y. Zhang & K. Nomoto:** Increase of Thy-1 antigen on the thymocytes accompanied with their augmented adhesion capacity to thymic epithelial cells in the mice infected with *Listeria monocytogenes*

203 **C. Lambert, R. Brealey, J. Steele & G. A. W. Rook:** The interaction of Tamm–Horsfall protein with the extracellular matrix

211 **U. G. Andersson, L. Björk, U. Skansén-Saphir & J. P. Andersson:** Down-regulation of cytokine production and interleukin-2 receptor expression by pooled human IgG

217 **R. Bertini, S. Garattini, R. Delgado & P. Ghezzi:** Pharmacological activities of chlorpromazine involved in the inhibition of tumour necrosis factor production *in vivo* in mice

220 **H. C. O'Neill & K. Ni:** Characterization of unique lymphoid cells derived from murine spleen which constitutively produce interleukin-6

229 **M. Taimi, H. Defacque, T. Commes, J. Favero, E. Caron, J. Marti & J. Dornand:** Effect of retinoic acid and vitamin D on the expression of interleukin-1$\beta$, tumour necrosis factor-$\alpha$ and interleukin-6 in the human monocytic cell line U937

236 **L. D. Hill, L. Sun, M. P. Leuschen & T. L. Zach:** C3 synthesis by A549 alveolar epithelial cells is increased by interferon-$\gamma$ and dexamethasone

241 **R. Hershkoviz, R. Alon, Y. A. Mekori, D. Gilat, L. Cahalon, A. Miller & O. Lider:** Heat-stressed $CD4^+$ T lymphocytes: differential modulations of adhesiveness to extracellular matrix glycoproteins, proliferative responses and tumour necrosis factor-$\alpha$ secretion

248 **C. Müller, S. Kukel & R. Bauer:** Relationship of antibodies against $CD4^+$ T cells in HIV-infected patients to markers of activation and progression: autoantibodies are closely associated with CD4 cell depletion

255 **V. L. Calder, Z. S. Zhao, Y. Wang, K. Barton & S. L. Lightman:** Effects of CD8 depletion on retinal soluble antigen induced experimental autoimmune uveoretinitis

263 **M. Röpke, C. Röpke & M. H. Claësson:** T-cell activation. VI. Inhibitory and stimulatory effects of anti-major histocompatibility complex class I antibodies in allogeneic mixed lymphocyte culture

270 **B. A. Garvy, W. G. Telford, L. E. King & P. J. Fraker:** Glucocorticoids and irradiation-induced apoptosis in normal murine bone marrow B-lineage lymphocytes as determined by flow cytometry

278 **J. Y. Niederkorn & E. Mayhew:** UVB irradiation renders corneal allografts tolerogenic for allospecific delayed hypersensitivity responses

285 **A. S. Bansal, W. Ollier, M. N. Marsh, R. S. H. Pumphrey & P. B. Wilson:** Variations in serum sCD23 in conditions with either enhanced humoral or cell-mediated immunity

290 **Y. Lin, G. Proud, R. M. R. Taylor & J. A. Kirby:** Renal allograft rejection: protection of renal epithelium from natural killer cells by cytokine-induced up-regulation of class I major histocompatibility antigens

298 **M. P. Bañuls, A. Alvarez, I. Ferrero, A. Zapata & C. Ardavin:** Cell-surface marker analysis of rat thymic dendritic cells

305 **D. R. Richardson, K. Cameron, B. Robinson & K. J. Turner:** The mechanisms of IgE uptake by human alveolar macrophages and a human B-lymphoblastoid cell line (Wil-2wt)

312 **P. D. Collins, V. B. Weg, L. H. Faccioli, M. L. Watson, R. Moqbel & T. J. Williams:** Eosinophil accumulation induced by human interleukin-8 in the guinea-pig *in vivo*

319 **M. Shalit, D. Pickholz & F. Levi-Shaffer:** Mast cells retain their responsiveness upon continuous and repetitive exposure to antigen

325 **G. Nilsson, K. Forsberg, M. P. Bodger, L. K. Ashman, K. M. Zsebo, T. Ishizaka, A.-M. A. Irani & L. B. Schwartz:** Phenotypic characterization of stem cell factor-dependent human foetal liver-derived mast cells

**Brief communications**

331 **K. M. Wilson, M. O. Labeta, G. Pawelec & N. Fernandez:** Cell-surface expression of human histocompatibility leucocyte antigen (HLA) class

II-associated invariant chain (CD74) does not always correlate with cell-surface expression of HLA class II molecules

336 **I. H. Dimier & D. T. Bout:** Co-operation of interleukin-1$\beta$ and tumour necrosis factor-$\alpha$ in the activation of human umbilical vein endothelial cells to inhibit *Toxoplasma gondii* replication

339 Book review

**Vol 79, No 3, July 1993**

341 **R. W. Johnstone, B. E. Loveland & I. F. C. McKenzie:** Identification and quantification of complement regulator CD46 on normal human tissues

348 **S. H. Sachs, W. Zhou, A. Pani, R. D. Campbell & J. Martin:** Complement C3 gene expression and regulation in human glomerular epithelial cells

355 **B. Nardelli & J. P. Tam:** Cellular immune responses induced by *in vivo* priming with a lipid-conjugated multimeric antigen peptide

362 **A. Mishra, K. V. S. Rao, H. Durgapal, V. Manivel & S. K. Panda:** Human T-helper cell responses to a synthetic peptide derived from the hepatitis B surface antigen

368 **M. V. Borca, A. E. Garmendia, B. Baxt, D. M. Moore, S. Srikumaran & D. O. Morgan:** Cross-reactive idiotopes among anti-foot and mouth disease virus neutralizing antibodies

375 **P. Matsiota-Bernard, W. Mahana, S. Avrameas & C. Nauciel:** Specific and natural antibody production during *Salmonella typhimurium* infection in genetically susceptible and resistant mice

381 **Y. Matsumoto, H. Hanawa, M. Tsuchida & T. Abo:** *In situ* inactivation of infiltrating T cells in the central nervous system with autoimmune encephalomyelitis. The role of astrocytes

391 **M. Hosono, S. Ideyama, J. Gyotoku & Y. Katsura:** Population movement and fate of autoreactive V$\beta$6$^+$ T cells in Mls-1$^a$ mice

398 **M. L. Hibberd, F. S. Wong, L. B. Nicholson & A. G. Demaine:** Analysis of human T-cell receptor V$\beta$ gene usage following immunization to tetanus toxoid *in vivo*

403 **Y. Aramaki, M. Murai & S. Tsuchiya:** Contribution of *N*-acetyl-$\beta$-D-galactosamine-specific lectin to Fc receptor-mediated phagocytosis by mouse peritoneal macrophages

408 **F. Q. Cunha, J. Assreuy, S. Moncada & F. Y. Liew:** Phagocytosis and induction of nitric oxide synthase in murine macrophages

412 **T. Kizaki, M. Ishige, W. Bingyan, N. K. Day, R. A. Good & K. Onoé:** Generation of CD8$^+$ suppressor T cells by protoscoleces of *Echinococcus multilocularis in vitro*

418 **H. Yang & R. M. Binns:** CD44 is not directly involved in the binding of lymphocytes to cultured high endothelial cells from peripheral lymph nodes

425 **S. Murakami, T. Saho, Y. Shimabukuro, R. Isoda, Y. Miki & H. Okada:** Very late antigen integrins are involved in the adhesive interaction of lymphoid cells to human gingival fibroblasts

434 **I. R. Sanderson, A. J. Ouellette, E. A. Carter, W. A. Walker & P. R. Harmatz:** Differential regulation of B7 mRNA in enterocytes and lymphoid cells

439 **J. Kwekkeboom, M. de Boer, J. M. Tager & C. de Groot:** CD40 plays an essential role in the activation of human B cells by murine EL4B5 cells

445 **L. Flores-Romo, D. Estoppey & K. B. Bacon:** Anti-CD40 antibody stimulates the VLA-4-dependent adhesion of normal and LFA-1-deficient B cells to endothelium

452 **H.-H. Mu, R. Penny & W. A. Sewell:** Interleukin-5 is necessary for eosinophilia induced by cyclophosphamide in immunized mice

459 **S. Kondo, K. Isobe, N. Ishiguro, I. Nakashima & T. Miura:** Transforming growth factor-$\beta$1 enhances the generation of allospecific cytotoxic T lymphocytes

465 **J. Hesketh, D. Dobbelaere, J. F. T. Griffin & G. Buchan:** Detection of proliferating cell nuclear antigens and interleukin-2$\beta$ receptor molecules on mitogen- and antigen-stimulated lymphocytes

471 **A. M. Verhagen, M. R. Brandon & A. D. Nash:** Characterization of the ovine interleukin-2 receptor-$\alpha$ chain: differential induction on precultured $\alpha\beta$ and $\gamma\delta$ T cells

479 **A. Ayala, D. R. Meldrum, M. M. Perrin & I. H. Chaudry:** The release of transforming growth factor-$\beta$ following haemorrhage: its role as a mediator of host immunosuppression

485 **J. Hampson, P. J. McLaughlin & P. M. Johnson:** Low-affinity receptors for tumour necrosis factor-$\alpha$, interferon-$\gamma$ and granulocyte–macrophage colony-stimulating factor are expressed on human placental syncytiotrophoblast

491 **T. Sakai, T. Agui, Y. Muramatsu, T. Yamada & K. Matsumoto:** Dissociation of interleukin-2 production from the cell activation in response to the mitogenic lectin in peripheral CD4$^+$ T cells of LEC mutant rats

498 **G. Pang, A. Buret, R. T. Batey, Q. Y. Chen, L. Couch, A. Cripps & R. Clancy:** Morphological, phenotypic and functional characteristics of a pure population of CD56$^+$ CD16$^-$ CD3$^-$ large granular lymphocytes generated from human duodenal mucosa

**Brief communications**

506 **A. M. Malygin & T. Timonen:** Non-major histocompatibility complex-restricted killer cells in human cord blood: generation and cytotoxic activity in recombinant interleukin-2-supplemented cultures

509 **J. C. Voltarelli, G. Gjerset & C. Anasetti:** Adhesion of CD16$^+$ K cells to antibody-coated targets is mediated by CD2 and CD18 receptors

512 Book review

**Vol 79, No 4, August 1993**

513 **A. B. Hassell, D. J. Reynolds, M. Deacon, J. S. H. Gaston & J. H. Pearce:** Identification of T-cell stimulatory antigens of *Chlamydia trachomatis* using synovial fluid-derived T-cell clones

520 **M. Dohlsten, M. Björklund, A. Sundstedt, G. Hedlund, D. Samson & T. Kalland:** Immunopharmacology of the superantigen staphylococcal enterotoxin A in T-cell receptor V$\beta$3 transgenic mice

528 **Y. H. Zhang, K. Isobe, F. Nagase, T. Lwin, M. Kato, M. Hamaguchi, T. Yokochi & I. Nakashima:** Glycyrrhizin as a promoter of the late signal transduction for interleukin-2 production by splenic lymphocytes

535 **C. R. L. Knight, R. C. Rees, A. Platts, T. Johnson & M. Griffin:** Interleukin-2-activated human effector lymphocytes mediate cytotoxicity by inducing apoptosis in human leukaemia and solid tumour target cells

542 **M. M. Whalen, R. N. Doshi, Y. Homma & A. D. Bankhurst:** Phospholipase C activation in the cytotoxic response of human natural killer cells requires protein–tyrosine kinase activity

548 **G. Gorochov, G. Gross, T. Waks & Z. Eshhar:** Anti-leucocyte function-associated antigen-1 antibodies inhibit T-cell activation following low-avidity and adhesion-independent interactions

556 **P. J. Wood & I. A. Cossens:** Loss of Th1-associated function in peripheral T cells but not thymocytes in tolerance to major histocompatibility complex alloantigen

562 **A. Noble, D. Z. Staynov & D. M. Kemeny:** Generation of rat Th2-like cells *in vitro* is interleukin-4-dependent and inhibited by interferon-$\gamma$

568 **B. B. Scott, S. Sadigh, M. Stow, R. A. K. Mageed, E. M. Andrew & R. N. Maini:** Anti-mouse red blood cell monoclonal antibodies use functionally rearranged genes from the $V_H$ J558 family and are derived from the CD5$^-$ B-lymphocyte subpopulation

574 **A. Robichon, S. P. Sreedharan, J. Yang, R. S. Shames, E. C. Gronroos, P. P.-J. Cheng & E. J. Goetzl:** Induction of aggregation of Raji human B-lymphoblastic cells by vasoactive intestinal peptide

580 **B. Vanhove & H. Bazin:** Differentiation of membrane IgE$^+$ rat B cells into IgE-secreting cells

587 **K. Tamura, J. Woo, M. T. Bakri & A. W. Thomson:** Brequinar sodium inhibits interleukin-6-induced differentiation of a human B-cell line into IgM-secreting plasma cells

594 **M. Haak-Frendscho, S. A. Marsters, S. M. Chamow, D. H. Peers, N. J. Simpson & A. Ashkenazi:** Inhibition of interferon-$\gamma$ by an interferon-$\gamma$ receptor immunoadhesin

600 **A. C. Issekutz & N. Lopes:** Endotoxin activation of endothelium for polymorphonuclear leucocyte transendothelial migration and modulation by interferon-$\gamma$

608 **A. Wozniak, W. H. Betts, G. A. Murphy & M. Rokicinski:** Interleukin-8 primes human neutrophils for enhanced superoxide anion production

616 **D. N. J. Hart, G. C. Starling, V. L. Calder & N. S. Fernando:** B7/BB-1 is a leucocyte differentiation antigen on human dendritic cells induced by activation

621 **G. M. Halliday & A. D. Lucas:** Protein kinase C transduces the signal for Langerhans' cell migration from the epidermis

627 **K. Burnham, S. Pickard, J. Hudson & T. Voss:** Requirements for Langerhans' cell depletion following *in vitro* exposure of murine skin to ultraviolet-B

633 **Y. Murakami, T. Imamichi & S. Nagasawa:** Characterization of C3a anaphylatoxin receptor on guinea-pig macrophages

639 **H. P. Heumer, Y. Wang, P. Garred, V. Koistinen & S. Oppermann:** Herpes simplex virus glycoprotein C: molecular mimicry of complement regulatory proteins by a viral protein

648 **P. Rainard:** Activation of the classical pathway of complement by binding of bovine lactoferrin to unencapsulated *Streptococcus agalactiae*

653 **P. H. Jakobsen, S. D. Morris-Jones, L. Hviid, T. G. Theander, M. Høier-Madsen, R. A. L. Bayoumi & B. M. Greenwood:** Anti-phospholipid antibodies in patients with *Plasmodium falciparum* malaria

658 **D. Schreuer & B. Hammerberg:** Modulation of cellular and humoral immunity, and disease manifestation during onset of patency in *Brugia pahangi*-infested dogs

667 **A. M. Moodycliffe, M. Norval, I. Kimber & T. J. Simpson:** Characterization of a monoclonal antibody to *cis*-urocanic acid: detection of *cis*-urocanic acid in the serum of irradiated mice by immunoassay

673 **J. J. Cornelissen, K. Maassen, L. van Emst, P. M. M. Weers, M. Harmsen, B. J. Benaissa-Trouw, T. A. M. Oosterlaken, C. A. Kraaijeveld & J. Verhoef:** Anti-idiotypic immunization provides protection against lethal endotoxaemia in BALB/c mice

**Brief communication**

681 **T. C. Chanh & J. F. Hewetson:** Polyclonal anti-idiotypes induce antibody responses protective against ricin cytotoxicity

685 Book reviews

688 Author and subject indexes for Volume 79
